# You Don't Pay For Your Staff 3 Years In Advance!

So why pay for your equipment in advance?  
Pay for it as it works for you! Why tie up precious capital?

# Financing Your Future

## Who are Leasing For Business?

Leasing For Business is in essence a business finance provider, but we prefer being called a "finance partner". We can arrange finance for nearly all business equipment, machinery and IT (including software). Predominantly our clients are small-medium size businesses and we specialise in building long term relationships that can play a key role in your business expansion.

Our facilities start from as little as £3,000 with repayment periods from 1 to 5 years. Why don't you arrange a credit line before you make your next capital purchase?
